DETAILED ACTION

Claims 1, 3, 4, 6-9, 11 and 12 are currently pending in the instant application.

I. *Response to Arguments/Remarks*

Applicants' amendment filed on June 12, 2008, has overcome the rejection of claims 1, 3, 4 and 6-10 under 35 USC 112, first paragraph for new matter. The above rejection has been withdrawn.

II. *Rejection(s)*

Claim Rejections - 35 USC § 112, 2nd paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the term "NO-donors" are not clearly defined in the specification to know the subject matter embraced by the term or to know the metes and bounds of the term.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, claim 8 is unclear about what Applicants are claiming in the claim. The limitation "the NO-donors contain in the molecule radicals of

the following radicals” makes no sense and causes the claim to be indefinite. Are applicants' claiming that the NO-donors are formed from the drugs listed in the claim?

III. *Objections*

Claim Objections

Claims 1, 3, 4, 6-9, 11 and 12 are objected to because of the following informalities: the term “alkyl” is missing in the definition of variable Y after “straight or branched C1-C20” and the group “straight or branched C1-C6 alkyl” is duplicated in variable Q in claim 1. Appropriate correction is required.

IV. *Conclusion*
